

GREENBOOK 25

DC'S LEGACY OF SUPPORTING SMALL BUSINESSES

Small Business Enterprise (SBE)
Opportunity Guide

WE ARE WASHINGTON
GOVERNMENT OF THE
DISTRICT OF COLUMBIA
MURIEL BOWSER, MAYOR

Certified Business Enterprises (CBEs) are pillars of local economic empowerment and community development in the District's ever-evolving economic landscape. These businesses, particularly the legacy CBEs, embody DC's resilience, innovation, and cultural heritage. They remind us that entrepreneurship is not just about profit but about building bridges across communities, generations, and aspirations.

This year's Small Business Enterprise Opportunity Guide, better known as the Green Book, is a tribute to those businesses—the anchors of our city—and a reflection on their critical role in shaping our collective future. From the Local Manufacturing Business Enterprises to the Resident-Owned businesses across the city, these entities are more than economic engines; they are cultural landmarks and custodians of our shared history.

The Fiscal Year 2025 DC budget, with its forward-thinking investments in CBEs, serves as a powerful testament to the District's unwavering commitment to fostering equitable opportunities for entrepreneurs in every corner of the District of Columbia. Through initiatives like the Certified Business Enterprise Program and the Green Book, the District aims to level the playing field, empowering businesses to not only survive but thrive.

DC's Legacy CBEs have a unique opportunity to thrive amidst the evolving landscape of economic change. These enterprises can secure a bright and sustainable future by embracing intentional planning, fostering collaboration, and engaging with the DC Government. Together, DC, we can adapt and flourish in new and exciting ways.

MURIEL BOWSER'S SUPPORT FOR SMALL BUSINESSES IN DC HAS MANIFESTED IN VARIOUS INITIATIVES AND POLICIES OVER THE YEARS.

- **January 2015:** Muriel Bowser is inaugurated as the seventh Mayor of the District of Columbia. From the outset, she expresses her commitment to fostering a supportive environment for small businesses.
- **April 2015:** Mayor Bowser established the “Green Team,” a dedicated group within the Office of the Deputy Mayor for Greater Economic Opportunity (DMGEO) to focus on local economic development and small business support.
- **June 2016:** The Department of Small and Local Business Development (DSLBD), under the leadership of Mayor Bowser, launches the DC Small Business Toolkit, an online resource offering information, guidance, and tools for small business owners and entrepreneurs.
- **November 2016:** Mayor Bowser introduces the “Made in DC” program, an initiative aimed at promoting and supporting local manufacturers and makers, further bolstering the local economy.
- **December 2017:** Under Mayor Bowser’s leadership, the DC Green Book, officially known as the “Small Business Opportunity Guide,” is introduced as a comprehensive resource to help local businesses navigate the complexities of starting, operating, and expanding their enterprises in the District.
- **June 2018:** Mayor Bowser announces the launch of “Great Streets,” a program designed to provide financial support and resources to businesses located on commercial corridors in underserved neighborhoods.
- **November 2019:** The “DC Tech Incentives” program is introduced to incentivize tech companies to locate, expand, or create tech-related jobs in the District, fostering innovation and job growth within the local tech industry.
- **January 2020:** Mayor Bowser unveils the “Small Business Resiliency Fund” to provide financial assistance to local small businesses adversely affected by the COVID-19 pandemic.
- **June 2020:** The Bowser Administration establishes the “Streeteries Program,” allowing restaurants and retailers to expand their outdoor dining and retail space during the pandemic to help them adapt to changing circumstances.
- **April 2021:** Mayor Bowser launches the “DC Main Streets Relief Fund,” offering grants to small businesses in designated Main Streets corridors impacted by the pandemic.
- **September 2021:** Under Mayor Bowser’s leadership, DSLBD holds the annual “DC Small Business Week,” featuring events and resources dedicated to recognizing and supporting the contributions of small businesses to the District’s economy.
- **March 2022:** The DC administration exceeds its initial spending goal, surpassing \$1.1 billion in investments, a testament to their dedication to driving economic growth and fostering a thriving and inclusive community.
- **December 2022:** Mayor Bowser’s announcement of the FY23 Equity Edition of the Green Book underscores her administration’s unwavering commitment to advancing equity and supporting the growth of small businesses in the District.
- **December 2023:** Mayor Bowser’s announcement of a record-breaking spending goal of \$1.2 billion on Small Business Enterprises (SBEs) exemplifies her resolute commitment to retaining and reinvesting local dollars within the community, strengthening the city’s economic foundation.

Muriel Bowser

Mayor, Washington, DC

Dear Small Business Stakeholders:

As your mayor for 10 years now, I remain focused on doing all I can to ensure our DC-based businesses continue to grow and add to the vibrancy of our diverse and resilient city. We have achieved significant milestones over the years, such as connecting local businesses to government opportunities, reaching record spending goals, and acknowledging the vital role of small businesses in our city's prosperity. These achievements reflect our ongoing support for the many legacy businesses that have laid the foundation of our economic and cultural cornerstones.

In Fiscal Year 2024, we introduced several new initiatives to strengthen our small business community. The Downtown Action Plan set the direction for revitalizing the heart of our city and creating a welcoming space for business growth. We also launched the Small Business Resilience Fund to directly support businesses facing challenging times; expanded the DC Capital Connector platform to make it easier for entrepreneurs to access funding and resources; encouraged residents to buy locally through our Shop DC campaign; and, brought more attention to our small businesses by highlighting their importance to our city's success.

We have also continued our long-standing support of local businesses through our retail grant programs. Since 2015, our Great Streets program has awarded over \$45 million to more than 500 businesses. And,

since 2010, our Robust Retail program has awarded close to \$4 million to support nearly 500 retail establishments across all eight wards.

Supporting our legacy businesses means acknowledging their deep roots and the generational wealth they create for families and communities. These businesses are the spine of our economy, helping residents build a path to success and impacting future generations, and importantly, key components of what makes DC great.

We created the Green Book in 2015 with an initial goal of spending \$317 million on procurement opportunities with local businesses. As we release the 2025 Green Book, I am proud that our commitment to investing in our local business community has grown over the years as well. For this coming year, we have set an ambitious goal of \$1.4 billion in small business enterprise (SBE) spending, reflecting our dedication to creating a fair and thriving DC for everyone.

Let's keep supporting businesses that have proven their resilience and continue encouraging new businesses to grow and thrive in DC.

Sincerely,

Muriel Bowser
Mayor

Nina Albert

Deputy Mayor for Planning and
Economic Development

Dear DC Business Community,

As we start 2025, I'm excited about the possibilities for economic growth and innovation in the District of Columbia, including for DC's local and small businesses. DC is currently home to over 70,000 businesses, with more than 90% being small businesses that power our local economy. And we continue to make strides toward achieving Mayor Bowser's goal of having 33% of our businesses being minority-owned by 2028.

At the Office of the Deputy Mayor for Planning and Economic Development (DMPED), we are committed to fostering an inclusive business environment where opportunity thrives in every ward of our city. We recognize and celebrate the vital role small and local businesses play for our city. They create jobs for our residents. They deliver goods, services, and experiences that support thriving neighborhoods. And they are a key part of building and keeping wealth within our city.

Among the ways DMPED is executing Mayor Bowser's vision to increase economic opportunity for our businesses and residents are to:

- grow our technology, consulting, marketing, and communications sectors;
- increase the supply of housing that is affordable to employees and residents;

- increase access to capital for businesses owned by people of color, women, and underrepresented entrepreneurs; and
- provide grants to help grow neighborhood-serving businesses.

DC's business landscape is alive with potential, and I encourage you to continue being part of the growth ahead. Together, we can ensure that every neighborhood in the District is thriving and where opportunity takes root and grows.

Sincerely,

Nina Albert

Deputy Mayor, Planning & Economic Development

Rosemary Suggs-Evans

Director, DC Department of Small and Local Business Development

Dear DC Small and Local Business Community,

As we begin Fiscal Year 2025, I want to reflect on all we've achieved together and express my gratitude for everything you do to make DC a better place. Your creativity, determination, and hard work keep our city's economy strong and thriving.

In FY24, we hit some incredible milestones. We registered more Certified Business Enterprises (CBEs) than ever before in the program's history—a huge win for all of us. This milestone shows how dedicated you are as business owners and how committed Mayor Bowser is to ensuring opportunities are available to businesses across all eight wards.

This year, we continue prioritizing support for all businesses, including legacy businesses. From providing technical assistance to offering financial resources, we want to ensure that every business in DC has the tools it needs to grow and succeed, no matter the challenges. The stories we hear from you—stories of resilience, reinvention, and community impact—remind us every day why we do what we do.

At DSLBD, our commitment to supporting DC's small businesses stretches across time. We honor your past successes, stand by you in the present, and always look for ways to help you prepare for the future. The Green Book is one way we do that. This resource connects you to important contracting opportunities with DC government agencies and

other organizations, helping you expand your business and reach new goals. More than just a guide, the Green Book is a roadmap to growth and a symbol of our partnership with you.

If you are new to the SBE program, welcome! We're here to help you navigate the small business journey. If you've worked with us before, we're excited to continue building on our partnership and finding better ways to support you. We know that running a business isn't always easy—dealing with red tape, finding funding, or growing your brand—but you're not in it alone. We're here to be a resource and a champion for you every step of the way.

The FY25 DC Green Book is more than a publication—it's a celebration of everything that makes DC's small businesses unique. It represents a sign of our shared vision for a strong, inclusive economy where every entrepreneur has a fair shot at success.

Thank you for your trust and for all that you do. Together, we're not just building businesses; we're building a lasting legacy of opportunity and success for the entire DC community.

With gratitude and encouragement,

Rosemary Suggs-Evans
Director, DC Department of Small and Local Business Development

Kenyan R. McDuffie

Councilmember, At-Large

Dear Small Business Stakeholder,

It is my honor to serve as Chair of the Council of The District of Columbia's Committee on Business and Economic Development and champion the small and local businesses that drive our city's economy. Small Businesses are the lifeblood of the District, and their success is essential to building an equitable and inclusive economy.

This year marks the release of the Ninth Annual Small Business Enterprise Opportunity Guide (Green Book)—a milestone that reflects our shared commitment to creating pathways for local businesses to thrive. Over the past nine years, we've made strides in removing barriers and expanding access to government contracting opportunities. Yet, we know there is more work to do to ensure procurement dollars reach small businesses in all eight wards.

As we work to improve our downtown corridor, make deep investments in our local sports economy, and create economic destinations in neighborhoods across the District, I remain deeply attuned to the role small businesses and equitable procurement opportunities play in achieving these goals. Initiatives like the Commercial Acquisition Fund demonstrate the power of targeted investments in small businesses, enabling them to secure critical assets and grow their footprint in the District. Programs like these, coupled with our \$1 billion procurement portfolio, play a vital role in

empowering women- and minority-owned businesses to create jobs and fuel our recovery.

As we celebrate this milestone, I encourage you to utilize the Green Book as a valuable tool for accessing opportunities. Together, we can ensure that local small businesses remain at the heart of our city's growth, innovation, and prosperity.

Sincerely,

A handwritten signature in blue ink, reading "K. R. McDuffie".

Kenyan R. McDuffie
Councilmember, At-Large

CBE TESTIMONIALS

Robin Appia

Educology Solutions (ESI)

Since 2015, Educology Solutions (ESI) has achieved an average annual growth rate of 40%, fueled by strategic hires, repeatable processes, smart teaming strategies, and a selective approach to pursuing opportunities. As President and CEO, I am proud to share how the DC Green Book and the Department of Small and Local Business Development (DSLBD) have been instrumental in supporting this journey. Early in our growth, the CBE program provided access to subcontracting opportunities with larger prime contractors supporting District agencies. These partnerships allowed us to refine our expertise, establish a strong foundation, and transition into larger procurements, including major federal and local opportunities.

The Green Book remains a critical resource in ESI's strategic planning, guiding our identification of new opportunities and shaping account strategies for growth. By leveraging this resource, we have built strong partnerships and broadened our impact, delivering innovative IT solutions to the DC Department of Healthcare Finance, Department of Health, Child and Family Services, Department of Employment Services, Office of the Chief Financial Officer, and the Washington Convention and Sports Authority. Our work extends beyond the District to federal clients such as the Internal Revenue Service, U.S. Customs and Border Protection, and U.S. Immigration and Customs Enforcement, as well as state and local clients in Maryland, Missouri, Montgomery County, and Baltimore County. This

expansive portfolio, combined with our strong capabilities, recently led to ESI securing a \$28 million cloud migration contract as a prime contractor—a key milestone in our journey.

ESI's team of more than 70 professionals supports our clients and corporate operations, ensuring we deliver exceptional results and meaningful impact. We are especially thankful to Milton Goodman and Earl King for their leadership and guidance, which have been instrumental in helping us access key opportunities and build strategic relationships.

We extend our deepest gratitude to Mayor Bowser and DSLBD for cultivating an environment where CBEs can thrive. Their steadfast commitment to local businesses has empowered ESI to grow, create jobs, and contribute significantly to the District's economy and community. To learn more about ESI and our services, please visit our website at www.esinc-dc.com.

Kristie Lee Jones & Stacie Lee Banks Lee's Flowers

Lee's Flowers has been a cherished part of our family and community since 1945, and we take immense pride in the legacy we've built. As the oldest Black-owned flower shop in Washington, DC—and in the country—we have spent nearly eight decades providing fresh flowers, thoughtful gifts, and a welcoming space for our neighbors.

Our grandparents, William and Winnifred Lee, founded this business with a vision to serve the community. Over the years, we have weathered economic changes while remaining steadfast in our commitment to our roots on historic U Street.

We owe our success to the unwavering support of our community and the city of Washington, DC. Under Mayor Bowser's leadership, the city has been a strong advocate for small businesses, providing vital financial assistance, resources, and opportunities for growth. Her dedication to empowering local businesses has enabled us to continue serving our neighbors and preserving our family's legacy.

This partnership between the city and its small businesses exemplifies the power of collaboration to create meaningful and lasting impacts—strengthening neighborhoods and ensuring that businesses like ours can thrive for generations to come!

Chrystal Stowe

Smoot Construction Company

As a mature company, it is important to have partners in the District government that understand that sustainability is just as important as new growth. DSLBD has been that partner to Smoot Construction Company (SmootDC) of Washington, DC for decades, and their staff has been instrumental in our success.

SmootDC is a minority-owned company headquartered in Washington, DC, specializing in preconstruction, construction management, and general contracting. We are proud to be a part of transforming the District of Columbia since 1968—building schools, libraries, museums and sports venues, employing DC residents in construction careers, and promoting subcontractor and workforce diversity.

Dr. Henok Tesfaye

U Street Parking, Inc.

U Street Parking, Inc. (USP Holdings) is a locally owned and operated business dedicated to delivering high-quality services and solutions tailored to meet the unique needs of our clients. Our expertise spans a diverse range of services, including parking management, construction services, real estate management, security, and janitorial and consulting services. We take pride in providing innovative, reliable, and cost-effective solutions that exceed client expectations.

With a strong commitment to excellence and innovation, we aim to contribute meaningfully to the growth and success of our community. As a company rooted in Washington, D.C., we are passionate about fostering local partnerships and playing a pivotal role in the city's economic development.

We are incredibly grateful for the support and opportunities provided by DSLBD and the CBE program. Participating in this program has been a transformative experience for our business. The guidance and resources from DSLBD have opened doors to local procurement opportunities that were previously out of reach.

Through the CBE program, we have been able to connect with local agencies, businesses, and partners, allowing us to showcase our capabilities and secure significant contracts. These opportunities have played a tremendous role in driving our growth and positioning us as a trusted partner within the District's business ecosystem.

The commitment of DSLBD to fostering local business development is evident in the comprehensive support it provides. From workshops and training sessions to networking events and streamlined processes, its dedication to helping small and local businesses thrive is unmatched.

We are proud to be a part of the CBE program and look forward to continuing our partnership with DSLBD as we grow, innovate, and contribute to the vibrant economy of Washington, D.C.

Dr. Henok Tesfaye

Dr. Willie Jolley, CSP, CPAE

As a member of The Speakers Hall of Fame and host of the #1 Sirius XM Show for small business people, I am a serious advocate for entrepreneurship. And I know how difficult it can be to grow a successful business. The Green Book is more than just a guide—it's a tool of empowerment for small business owners and entrepreneurs in Washington, D.C. It connects businesses with opportunities, helping them grow, thrive, and contribute to the economy. The Green Book provides valuable resources and pathways for collaboration to grow impact and income. The Green Book enables small business owners to dream bigger and achieve greater success.

Dr. Willie Jolley, CSP, CPAE

GUIDE OVERVIEW

HOW TO USE THIS GUIDE

GUIDE OVERVIEW

The Green Book – coupled with the online resource greenbookdc.com – is designed to help Small Business Enterprise (SBE) business owners:

Understand the Government of District of Columbia's:

- **Goal for spending its Fiscal Year 2025 budget** with SBEs via agencies subject to monitoring (summary page 11; agency detail pages (42 to 130); and
- **Progress on spending its Fiscal Year 2025 budget** with SBEs subject to monitoring (summary page 11).

Learn How to Use the Data in this Guide and at greenbookdc.com to:

- Understand the **types of products and services** sought by the DC Government;
- Locate **current and pending contract opportunities** for these products and services;
- Consider **whether to expand a business to compete** for contracts that request products/services similar to its current business model; and
- Connect with free, **in-depth contracting assistance** to help small and local businesses build their capacity to compete effectively for DC Government contracts.

WHICH AGENCIES ARE INCLUDED IN THE GUIDE?

There are 90 Monitored Agencies included in this guide.

Monitored Agencies have budgets with expenditures that can be spent with SBEs and will be monitored to determine if they meet their annual SBE Spending Goal. Review the list of these agencies on pages 36 and 37, and their individual agency details on pages 38 to 127.

Non-monitored Agencies or Funds do not have an expendable budget and are not required to participate in the DC Government's SBE goal-setting process.

WHAT ARE SMALL BUSINESS ENTERPRISES (SBES)?

This guide focuses on Small Business Enterprises (SBEs). SBE is a subcategory of the DC Government's Certified Business Enterprise (CBE) program that gives certified businesses a preference when bidding on DC Government contracts.

To be certified as an SBE, a business must demonstrate that they are local and receive the Local Business Enterprise (LBE) designation. Then, the business must demonstrate that it is independently owned, operated, and controlled; meets the U.S. Small Business Administration definition of a small business; and has not exceeded DSLBD thresholds for annualized gross receipts over the past three years.

NAVIGATING GREEN BOOK TERMS

The Summary of Agencies Monitored for FY25 SBE Spending (page 11) and individual agency pages (pages 41 to 130) of this guide contain the following information:

1. FY25 BUDGET Details
2. FY25 SBE Spending Goal & Calculation
3. FY25 Planned Acquisitions Highlights
4. Previous Fiscal Years' SBE Spending

1. FY25 BUDGET DETAILS

Total Budget is the Fiscal Year 2025 (FY25) Total Appropriated Monitored Budget, which includes operating and capital dollars. FY25 begins October 1, 2024 and ends September 30, 2025. FY25 BUDGET information published in this book is current as of December 1, 2024. For the most current data, please visit greenbookdc.com.

Personnel & Fixed Costs are the expenditures for agency staff salaries, utilities, rent, and other fixed costs that cannot be contracted out to SBEs. These costs are not subject to the SBE spending requirement. These are also called **Automatic Exclusions**.

Expenditures that agencies proposed and DSLBD confirmed are not SBE eligible & Anticipated Transfers. This amount is also referred to as **Special Exceptions** and comprises the types of expenditures listed below. During FY25, agencies may report that some of these funds are contracts for which SBEs may apply. DSLBD will update the agency's online record at greenbookdc.com.

a) Anticipated Transfers are funds that one agency will transfer to another agency for services. For example, the transfer of funds from an agency to the Office of Chief Technology Officer to provide technology upgrades.

b) Reasons to approve Special Exceptions are outlined in 27 DCMR 830.6 and approved by the DSLBD Director, which may include:

- No SBEs are available to provide the product/service due to lack of availability, interest and/or business capacity;
- Local or federal law controlling the expenditure of the funds (such as Medicaid services);
- Proprietary products/services that are owned by another entity or require special licensure (such as LexisNexis subscription service); and

- Specialized services that require specific expertise unique to a particular agency (such as biologists to support watershed restoration efforts).

c) Waivers: District Government contracts exceeding \$250,000 require a 35 percent subcontracting set-aside with SBEs. Subcontracting requirements may be waived by the Department of Small and Local Business Development (DSLBD) if an agency submits an official waiver request to DSLBD justifying why the requirement cannot be met by SBEs.

Planned Acquisitions: SBE Eligible, also referred to as an agency's **Expendable Budget**, is the amount of the agency budget remaining for purchasing products and services after subtracting the aforementioned Automatic Exclusions and Special Exceptions, and Anticipated Transfers. By law, agencies are required to spend 50 percent of their Expendable Budget with SBEs

Businesses are encouraged to review the detailed records for this budget category at greenbookdc.com to identify potential areas in which to expand their business and pursue contract opportunities.

2. FY25 SBE SPENDING GOAL & CALCULATION

The FY25 SBE Spending Goal is the minimum amount that each DC government agency is required to spend with SBEs between October 1, 2024 and September 30, 2025. The goal is set by dividing the Expendable Budget in half (50%). Goals will be adjusted throughout the year based on budget changes and adjustments (ADJUSTED GOAL).

Goal: \$272.8K

Total: \$545.7K

3. FY25 SBE SPENDING GOAL & CALCULATION

Annually, agencies report how they plan to spend their procurement dollars on various products and services. They update their forecasted spending plans throughout the year.

This guide highlights some of the Planned Acquisitions by category and includes the associated NIGP/commodity code. These highlighted examples may be of particular interest to SBEs because:

- in the past agencies indicated they could not find SBEs for the product/service; or
- these are products/services that SBEs could provide directly, via subcontracting with primes, teaming with other CBEs and/or building the business' capacity.

FY25 Planned Acquisitions Highlights data published in this book is current as of December 1, 2024. For the most current data, please visit greenbookdc.com.

4. PREVIOUS FISCAL YEARS' SBE SPENDING

The SBE Spending is the total amount of funds that an agency spent with SBEs. The amounts for FY21, FY22, and FY23 are final (audited and verified).

The FY24 Preliminary SBE Spending amounts included herein are based on transactions recorded to the Office of the Chief Financial Officer's System of Accounting Record (SOAR) as of November 2024. These expenditures are preliminary and unaudited, which are subject to change based on final adjustments and modifications to the District's accounting records in preparation for the District of Columbia 2024 Comprehensive Annual Financial Report (CAFR).

Agencies' SBE spending amounts may vary year to year depending on several factors including:

- Priorities specific to a fiscal year;
- Overall budget increases and decreases, such as technology upgrades or other mission-critical procurements that may be funded in one fiscal year but not the next; and
- The source of the funds received may have a restricted use and is not available to SBEs.

Goals will be adjusted throughout the year based on budget changes and adjustments.

Requirements Behind the SBE Goal Setting and Spending

To read the full text of the policy and legislation governing the SBE goal setting, agency spending requirements and the CBE program, visit greenbookdc.com and click Review Agency SBE Requirements.

WHY DO CERTAIN DSLBD DOCUMENTS REFERENCE CBE SPENDING GOALS?

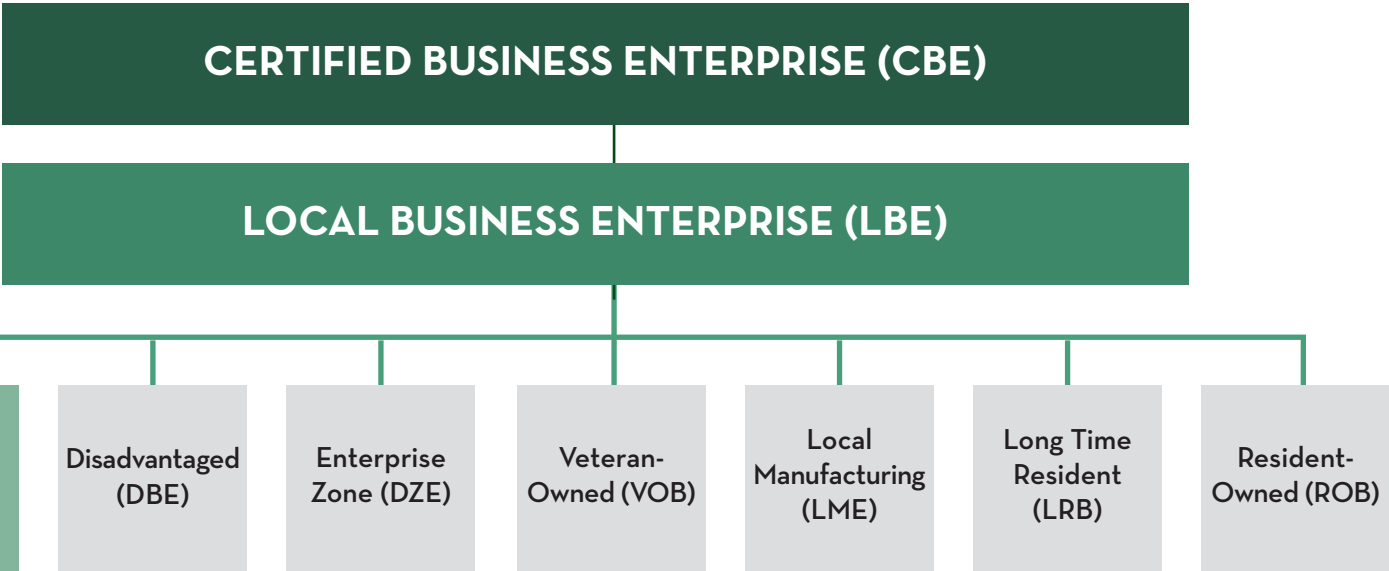

Prior to the 2014 Small and Certified Business Enterprise Development and Assistance Amendment Act, all CBEs received equal preference for District contracts and procurements. The 2014 act added priority to SBEs. Public recognition of the program has continued to follow the term CBE. While DSLBD has implemented the update in the law, rebranding of the spending goal to match the new priority will take time.

WHAT IS A CBE?

- **Procurement Preference.** CBEs are registered companies with the Department of Small and Local Business Development (DSLBD) and receive preference in District Government contracting and procurement.
- **Certification Categories.** To become certified, a business must meet the requirements of an LBE, a Local Business Enterprise, by demonstrating the business is headquartered in the District and that more than fifty percent of employees, owners, assets or gross receipts reside in the District of Columbia.
- **Subcategory.** CBEs can apply for additional certifications to receive added preference in procurement, including Small, Disadvantaged, Resident-Owned, Longtime Resident, Enterprise Zone, Veteran-Owned, and Local Manufacturing.

WHAT IS A SBE?

- **Procurement Preference.** SBEs are a CBE subcategory. District agencies monitored by DSLBD are subject to an annual SBE spending goal requirement, and SBEs receive preference within set-aside procurements.
- **Certification Requirements.** To be certified as an SBE, a business must demonstrate that they are: local; independently owned, operated, and controlled; meet the U.S. Small Business Administration definition of a small business; and have not exceeded DSLBD thresholds for annualized gross receipts over the past three years.
- **Agency Requirements.** While agencies have SBE spending requirements, if no SBEs are available to complete work, agencies must spend with CBEs.

CONTRACTING ASSISTANCE

This guide is part of a larger suite of services that the District offers to connect SBEs to procurement opportunities.

1. FINDING CONTRACT OPPORTUNITIES USING GREENBOOKDC.COM

DSLBD is dedicated to maximizing SBE participation by linking existing SBEs to contracting opportunities. The Green Book DC website (greenbookdc.com) is a comprehensive and robust undertaking by DSLBD to provide CBEs a one-stop shop for all contracting and procurement needs.

2. AVAILABLE ASSISTANCE TO HELP SBES COMPETE FOR CONTRACT OPPORTUNITIES

DSLBD’s DC Procurement and Technical Assistance (DC PTAC) program offers free, in-depth contracting assistance to qualified DC businesses. Once SBEs meet DC PTAC requirements, they may work with PTAC contracting specialists to expand their business to identify and compete for local and federal contract opportunities.

Requirements: Must have a business plan, have a DUNS number, be a registered business with DCLP, and have past performance (government preferred). People often have the misconception that any business can work with PTAC, but they must meet the requirements.

Contact DC PTAC at 202.727.3900 or dslbd.dc.gov/ptac.

OCP OMBUDSMAN

The Office of Contracting and Procurement (OCP) Ombudsman provides contractors and subcontractors performing work or providing services under a District contract a fair, informal, impartial and confidential voice through which they may communicate their complaints and concerns regarding contracting and procurement. Contact OCP Ombudsman William Peter Teague (Pete) at 202.724.4197 or William.Teague2@dc.gov.

3. WORKSHEET

DSLBD created a worksheet (page 37) as a companion tool to help SBEs use this book and greenbookdc.com to find and prepare for DC Government contracts.

The Metropolitan Washington Airports Authority (Airports Authority) manages four key entities: Ronald Reagan Washington National Airport, Washington Dulles International Airport, the Dulles Toll Road, and construction of Metrorail Silver Line expansion to Dulles Airport and beyond through the Dulles Corridor Metrorail Project. The Airports Authority provides world-class travel options and plays a key role in generating new business, creating jobs to support the local economy, boosting economic development through supplier diversity, and promoting tourism. Additionally, the Airports Authority, through its business enterprises, contractors, and dependent industries, provides or supports nearly 400,000 jobs across the region, more than 100,000 of which are based in the District of Columbia, generating more than \$4.5 billion in annual labor income. Regionally, jobs provided or supported by the Airports Authority account for approximately \$15 billion in annual labor income, approximately \$3 billion in state and local taxes, and nearly \$21 billion in business revenue. Through the Office for Diversity, Inclusion and Social Impact, the Airports

Authority encourages the participation of DC-based businesses in its contracting opportunities by engaging in various strategic events, supplier development programs, and partnerships throughout the DC metropolitan area to promote the Airports Authority’s Small Business Programs, and ultimately increase DC-based firms’ participation in Airports Authority procurement opportunities. The Airports Authority SLBE Program provides opportunities to local small business firms without regard to race or sex. These SLBE firms are eligible for any Authority contract that requires SLBE participation. An SLBE is defined as a small business concern, which is organized for profit and located within a 100-mile radius of Washington DC’s Zero Mile Marker. The average annual gross receipts, based on the firm’s last three years of receipts, must not exceed the small business size standard established by the Authority for the services or goods that will be provided in an Authority contract. The receipts of all affiliates are counted in determining size.

pepcoSM

AN EXELON COMPANY

website: [pepco.com](https://www.pepco.com)

contact: Karen DaSilva

email: karen.dasilva@exeloncorp.com

phone: 202-428-1055

address: 701 Ninth Street, NW Washington, DC 20001

As a major employer, service provider, and community partner in the District of Columbia, Pepco is committed to advancing the social and economic well-being of the communities we serve. Our efforts focus on a smarter, stronger, cleaner energy grid while supporting local economic growth and creating meaningful opportunities for diverse businesses to thrive.

Commitment to Local and Diverse Suppliers

Partnering with local, diverse suppliers is essential to achieving these goals. We recognize the importance of engaging with small, minority-owned, women-owned, and other diverse businesses, and are committed to growing these relationships each year. This is critical to supporting the infrastructure projects that enhance service reliability and improve the experience for our customers.

We connect businesses with Pepco, providing opportunities to contribute to major infrastructure projects across the District. These projects play a significant role in improving the energy grid, expanding capacity, and ensuring long-term reliability for our customers. Below are some key infrastructure projects where local and diverse suppliers are making an impact:

Key Infrastructure Projects

1. District of Columbia Power Line Undergrounding (DC PLUG)

The DC PLUG initiative is a collaboration between Pepco and the District of Columbia aimed at improving the reliability and resiliency of the city's energy grid. By placing select feeders underground in Wards 3, 4, 5, 7, and 8, the initiative seeks to minimize storm-related outages and enhance grid performance.

To foster opportunities for local contractors, Pepco has hosted supplier forums, networking events, and one-on-one meetings. These forums provide a platform for local contracting companies to explore opportunities related to the project, which includes

building manholes, installing distribution equipment, and other essential tasks. Pepco is committed to continuing these engagements to ensure that local and diverse suppliers play an integral role.

2. The Capital Grid Project

The Capital Grid Project is an ambitious initiative designed to strengthen the energy grid over the long term. This project includes upgrades to three existing Pepco substations in the District and Maryland, construction of a new substation in a rapidly growing area of the District, and installation of approximately 10 miles of underground transmission cables.

Upgrades have been completed at the Takoma and Harvard substations, and the new Mt. Vernon substation was energized in 2024. Construction of the Champlain substation is set to begin in 2025. We continue to engage local and diverse contractors to fill remaining opportunities in these critical infrastructure upgrades. These improvements will enhance grid resilience, support future growth, and ensure continued safe and reliable energy delivery to our customers.

3. Downtown Distribution Resupply Project

We are also working on the Downtown Distribution Resupply Project, which involves installing new distribution and transmission conduits in the Northwest quadrant of downtown D.C. This work connects the F Street and L Street substations and will support rebuilding both substations, ultimately increasing the energy capacity in the downtown area. The project will unfold in multiple phases, with opportunities for local and diverse contractors available as each phase progresses.

\$45,000,000

FY 2023 Local Business Spend

Empowering Diverse Suppliers Through Education and Engagement

In line with our commitment to enhancing procurement efforts with local diversity-certified suppliers, we established the Empowerment Academy (formerly known as Target 25). This initiative offers prospective suppliers valuable insights into our procurement procedures, as well as those of our parent company, Exelon. The Empowerment Academy helps vendors grow their relationships with Pepco and gain the tools and knowledge needed to successfully compete for contracting opportunities.

The Empowerment Academy is dedicated to supporting local, diverse businesses. The program provides small and diverse suppliers with the resources and support needed to succeed and engage with us on major projects, fostering strong community partnerships.

Ongoing Commitment to Reliability and Local Economic Growth

Pepco will continue to actively engage local and diverse contractors in current and future projects, ensuring that our work not only benefits our customers but also contributes to the economic growth of the communities we serve. By maintaining a focus on inclusivity and diversity, we aim to strengthen both our energy grid and the local economy, helping to create a more sustainable future for all.

Collectively, these efforts support the growth and prosperity of the District of Columbia's communities, while providing the reliable energy services that our customers depend on.

Doing Business with Pepco

Companies interested in working with Pepco and other Exelon companies are encouraged to register on our supplier portal at exeloncorp.com/Suppliers. Through this platform, businesses can provide important information about their company, including their diversity status, and be considered for upcoming opportunities with Pepco or any of Exelon's Operating Companies.

Washington Gas is dedicated to promoting diversity, equity, and inclusion within its operations. With a proud history spanning 175 years, we aim to build lasting relationships with a wide variety of suppliers that reflect the diverse communities we serve. By nurturing sustainable partnerships, we embed the principles of diversity and inclusion into all aspects of our work, ensuring that diverse suppliers are prioritized in both direct collaborations and subcontracting opportunities.

Our efforts extend beyond fostering regional growth; we also focus on enhancing energy security, infrastructure, transportation, and economic resilience in the greater Washington area. A robust natural gas infrastructure plays a vital role in achieving these goals, and we actively collaborate with both public and private sector partners. Washington Gas is unwavering in its commitment to driving economic development while addressing the region's energy needs.

We maintain a strong Supplier Diversity program aimed at fostering growth and opportunity. This program is a crucial aspect of our company's annual Corporate Value drivers and emphasizes diverse spending, ensuring accountability at all organizational levels, including the executive team. This further illustrates our dedication to integrating diversity and inclusion into our procurement processes.

Our program encourages Prime Contractors to actively engage with diverse suppliers. We motivate these contractors to participate in Washington Gas-hosted events as well as initiatives held by community partners and agencies like the Department of Small Local Business Development's "Meet the Primes."

Washington Gas works closely with Prime Contractors to provide education, identify subcontracting possibilities, and monitor the effectiveness of their diversity efforts. This collaborative approach ensures that diversity and inclusion remain central to our equitable business practices throughout the subcontracting process.

Moreover, the involvement of diverse suppliers is woven into our sourcing strategy. To track our progress, Washington Gas monitors the number of diverse suppliers within our supply chain and the proportion of contracts awarded to local and diverse businesses.

Through targeted outreach initiatives, Washington Gas actively connects with diverse supplier organizations to effectively reach and engage diverse suppliers. We prioritize personalized communication, host webinars and workshops, highlight supplier registration options on our website, and participate in diversity-oriented events and networking opportunities. These deliberate interactions allow us to gain insights into suppliers' capabilities and assess their fit for our needs.

Additionally, we provide training, resources, and mentorship programs that help diverse suppliers enhance their skills, boost their competitive edge, and meet our company's standards.

By implementing these strategies and fostering an inclusive culture, Washington Gas has significantly increased opportunities for diverse suppliers, driving economic growth, enhancing diversity and inclusion, and contributing to a more equitable business environment.

The Washington Metropolitan Area Transit Authority (WMATA or Metro) was created by an interstate compact in 1967 to plan, develop, build, finance, and operate a balanced regional transportation system in the national capital area. The Authority began building its rail system in 1969, acquired four regional bus systems in 1973, and began operating the first phase of Metrorail in 1976. Today, Metrorail serves 91 stations and has 118 miles of track. Metrobus serves the nation's capital 24 hours a day, 7 days a week with 1,500 buses. Metrorail and Metrobus serve a population of 3.4 million within a 1,500-square-mile jurisdiction. Metro began its paratransit service, Metro-Access, in 1994; it provides about 1.5 million trips per year.

WMATA has five (5) socioeconomic programs and two (2) certification programs that support the prosperity of the local, small, minority- and women-owned business communities and strives to ensure opportunities are marketed, published, and meet regulatory requirements.

- Disadvantaged Business Enterprise Program (DBE) – Federally Mandated by 49 CFR 26
- Small Business Enterprise Program (SBE) – Federally Mandated by 49 CFR 26.39
- Minority Business Enterprise Program (MBE) – New program non-federal
- Small Business Program (SBP) – New program non-federal
- Micro-Business Program (MBP) – New program non-federal
- WMATA Certification Oversight Committee (WCOC) (MBE Program)
- District of Columbia Unified Certification Program (DCUCP) (DBE Program joint with D.DOT)

These programs have structured contracting requirements to facilitate competition by small, minority- and women-owned business concerns, taking all reasonable steps to eliminate obstacles to their participation in procurements as prime contractors or subcontractors.

2.6 BILLION CAPITAL BUDGET, 2.4 BILLION OPERATING BUDGET

Year to Date 2025 (January-September).

Equity through System Design

Metro defines an equitable transit system as one that provides an outcome where everyone can use the transit system to access the region's opportunities and resources. Metro has created an equitable transit system by:

- Acknowledging that some populations, particularly those of color, low-income, and/or with disabilities, disproportionately experience injustice across many facets of life due to longstanding, structural challenges.
- Recognizing that the agency's investments and operational decisions change lives and therefore committing to intentionally prioritizing equity when designing, implementing, and evaluating strategies, policies, practices, and investments.

Metro is actively working to improve equity in the DMV as a mobility provider and understands that it serves a diverse community of customers.
